

<Photo submission requirements>

The following photographs must be submitted with each application:

In addition, please refer to the examples of appropriate photos and appropriate photos below when submitting photos that meet the standards.

If an application is submitted using an inappropriate photograph that does not meet the specified standards, you will be asked to take a new photograph.

1. Photo size 4cm long, 3cm wide
2. A photograph of the applicant only
3. The dimensions of the part excluding the edges must meet the imensions shown in the diagram on the left.

(Facial measurements are from the top of the head (including hair) to the tip of the chin)

4. Hatless and facing forward
5. No background (including shadows)
6. Something that is clear
7. **Must have been taken within 6 months prior to the date of submission**
8. A document with your name written on the back (excluding cases where you print the photo directly into the photo attachment section of the application form and submit it (note))

(Note) Please check the page for each application procedure to see if it is possible to print photos directly onto application forms, etc.

Suitable photo examples

Meets all the specified standards and allows easy identification of a person

Example of inappropriate photos

Items that do not meet the specified dimensions or standards

Part of the face is hidden

The frames of my glasses are hanging over my eyes

The frames of the glasses are very thick

The light is reflecting off the glasses

A mask covers part of the face

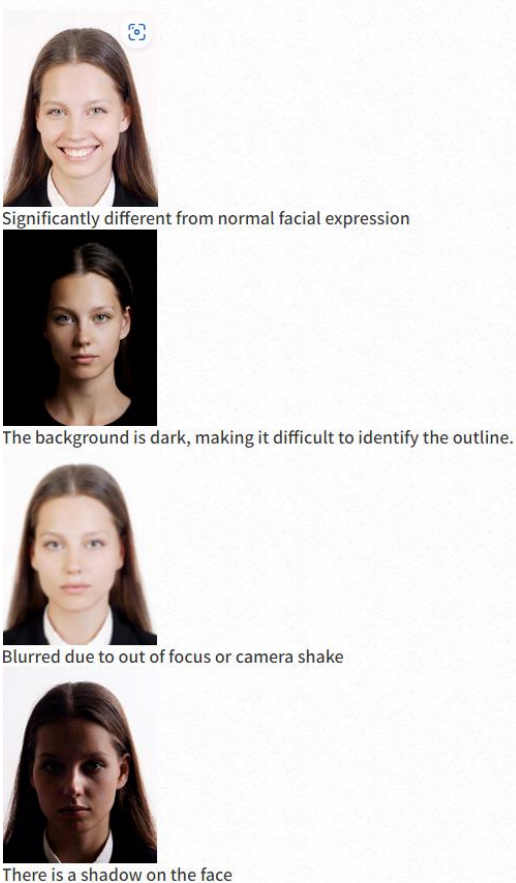

The eyes are hidden by the bangs

The face is covered with cloth and casts a shadow

(Note) It is acceptable if your face is covered with a cloth or other material as long as it is clearly visible. If you are covering your face with a cloth or other material for religious or medical reasons, we ask that you submit a statement (optional form).

It is difficult to identify a person

*** In addition, it is inappropriate under any circumstances to change the image of the person by editing or processing the image to make the eyes look larger, whitening the skin, or modifying facial features, moles, wrinkles, etc. Also, photos that are reversed horizontally are inappropriate.**
